460						Return 0

Input (Case 9 : from user that enter numbers to choice)

Choice = 1, name = Robert Stevan Kaplan , item code = 8, quantity=7, item code = 4,
quantity=5, item code = 6, quantity=10,item code=d

Output :

User identity = Customer , display user's name, display item[7], display quantity of item,
return item and price list ,display item[7], display unit price of item, display customer total
buys, display no discount message, display appreciation message, exit program.

Line	Choice	Name	Itemcode	Quantity	Conditions	Input/Output
54	1				Enter only (1-4)	Choice = 1
68					Choice is valid number.
